

Recently we took the opportunity to survey our entire student body to learn more about their thoughts on Elevations as a whole. This survey is done Quarterly so we can track results, here is our feedback from students heading into the 2017-2018 school year.

Every student had a chance to complete the survey and every question had 5 possible choices Strongly disagree, disagree, neither disagree nor agree, agree, and strongly agree. Students also had the opportunity to give us written feedback.
